

LAWAL DANIEL ADEBOLA

Frontend Developer Intern

Nigeria

PROFESSIONAL SUMMARY

Frontend developer with practical experience building responsive, user-focused web applications using React.js, JavaScript, HTML, CSS, and Tailwind CSS. Experienced in developing real-world projects including real-time chat applications, booking platforms, and organizational websites with modern UI/UX design principles. Skilled in frontend architecture, responsive layouts, component-based development, API integration, and real-time features using Socket.io and Firebase. Passionate about building clean, scalable, and interactive digital experiences while continuously improving performance and usability. Seeking a frontend development internship to contribute technical skills, collaborate with development teams, and grow professionally in modern web technologies.

TECHNICAL SKILLS

React.js

HTML5

CSS3

JavaScript (ES6+)

Tailwind CSS

Git & GitHub

Vercel

VS Code

Responsive Design

MongoDb

Real-time Data

State Management

Rest API

Socket.io

PROJECTS

First Chat App

[first-chat-app-limm.vercel.app](#)

A real-time messaging and social feed application that enables users to create accounts, connect with friends, share moments, and stay in touch. Features include user authentication, real-time chat functionality, a social feed section for sharing updates, responsive design, and an intuitive, modern UI. Built with Firebase for backend services including authentication and real-time database.

Technologies: React, Tailwind CSS, JavaScript, Vercel, MongoDB, Socket.io, Cloudinary, Rest API.

Foundation Website

[foundation-ta2t.vercel.app](#)

Non-profit organization website featuring responsive design, modern UI, and user-friendly navigation.

Technologies: React, Tailwind CSS, JavaScript

PROJECTS

First Chat App

[first-chat-app-limm.vercel.app](#) ↗

Developed a modern real-time chat and social networking platform that allows users to create accounts, interact with friends, exchange messages instantly, and share posts through a social feed. Implemented responsive layouts, authentication flows, dynamic UI rendering, and real-time communication features to improve user engagement and seamless interaction across devices. Built reusable React components and optimized frontend performance for smooth navigation and fast rendering. Integrated backend communication, cloud media handling, and real-time messaging architecture to simulate a production-ready social application experience.

Technologies: React.js, JavaScript (ES6+), Tailwind CSS, Firebase Authentication, Socket.io, REST API, MongoDB, Cloudinary, Responsive Design, Vercel, Git & GitHub.

Foundation Website

[foundation-ta2t.vercel.app](#) ↗

Designed and developed a responsive website for a non-profit organization focused on community outreach and awareness. The platform features clean navigation, structured content sections, mobile-friendly layouts, and visually appealing UI components to improve accessibility and user experience. Focused on creating a modern frontend architecture with reusable components, optimized page responsiveness, and smooth visual interactions suitable for both desktop and mobile users.

Technologies: React.js, Tailwind CSS, JavaScript, Responsive Design, Vercel, Git & GitHub.

Beauty & Spa Platform

[bq-beauty-pro-n-spa.vercel.app](#) ↗

Created a professional beauty and spa booking platform with elegant visual presentation, service showcases, appointment booking sections, and responsive layouts tailored for customer engagement and brand visibility. Implemented modern UI/UX principles, smooth section transitions, optimized component structure, and mobile responsiveness to provide users with a premium browsing experience across devices. **Technologies:** React.js, Tailwind CSS, JavaScript, Responsive Design, Vercel, Git & GitHub.

EDUCATION

Federal University of Technology and Environmental Science (FUTESI), Iyin Ekiti
B.Sc. Cybersecurity — 100 Level

Lagos, Nigeria • [adebola1351@example.com](#) • [github.com/bobodan351](#)
